Your ref

27<sup>th</sup> November, 2009.

Dear Occupier,

**Refurbishment of Sewage Pumping Station within Toilet Block, Bristol Hill**

As part of our refurbishment programme, Claret Civil Engineering Limited will be carrying out work on the sewage pumping station above.

The work is scheduled to commence on the 1<sup>st</sup> December and the refurbishment will take approximately sixteen weeks to complete.

Preliminary works have been scheduled before Christmas and the main works will commence in the New Year. The aim is to minimise the impact on the area during the project but will involve temporary site facilities, increased activity on site and a higher level of vehicular movement.

All the construction work will take place within the pumping station compound and, generally, during a normal working window of 07:00 to 18:00.

Access to the public toilet will be retained.

If there are any concerns or questions that you may have, please do not hesitate to call me on 01206 289212, between 08:00 to 17:00.

Yours truly,

Tony Lammas  
Asset Engineer
